Management Discussion and Analysis

Economic Outlook

Global Economic Overview

Global markets have witnessed significant softening over the last year with a sharp uptick in international trade protectionism via imposition of tariffs and other measures. Such protectionist moves by large economic powers tend to have a negative spillover effect on global markets. Money from developing markets has been pulled out systematically over the fiscal and reallocated to dollar denominated instruments given the superior performance of the US economy. Tangible global risks include the possibility of escalating trade tensions, sharper-than-expected slowdowns in major economies, and renewed financial stress in the banking system.

Indian Economic Overview

The Indian economy witnessed a slowdown in FY19 in the backdrop of a weakening global economy. Gross Domestic Product ("GDP") growth plunged to 6.8% this year from 7.2% in FY18; this is lower compared to the last 5-year average GDP of 7.5%. A weaker-than-anticipated inflation, growth slowdown and softer international monetary conditions have led to 75 bps decline in repo rates after increasing by 50 bps during the first half of FY19. The Indian economy is likely to see recovery in FY20, with the GDP growth pegged at 7% for the year. Investment rate is expected to pick up on the back of higher credit growth and improved demand. Political stability, higher capacity utilization and uptick in business expectations is also expected to contribute to the investment climate. Accommodative monetary policy is expected to lower lending rates as well.

Sectoral Outlook

Industry Landscape

FY19 was a mixed year for the financial sector, a year of two distinct halves. The first half started on a positive note with tailwinds from smooth functioning of GST, thrust to the rural and infrastructure sectors in the Budget, recapitalization of public sector banks and resolution of distressed assets under the Insolvency and Bankruptcy Code. Bank credit growth was higher during this period relative to FY18. Incremental credit was Rs.9,446 billion compared with Rs.5,847 billion last year. However, the distribution was quite uneven, and this was quite significant given the liquidity strains that were witnessed during the second part of the year.

The NBFC Sector

Non-Banking Financial Companies ("NBFCs") have come under serious financial stress in the last several quarters, especially post September 2018 which saw defaults from some large NBFCs in the country. As a result, NBFCs, large or small have had to pay a heavy price including Small Finance Banks especially due to rising Non-Performing Assets ("NPAs") and poor growth of book size owing to asset liability management concerns. Banks and mutual funds, the biggest sources of funding for the sector, cut down on their exposures to NBFCs and Housing Finance Companies (HFCs), while interest rates on Commercial Papers spiked. This jointly resulted in a higher cost of borrowing for NBFCs causing a liquidity squeeze forcing many NBFCs to sell assets and cut back on new loans. Subsequently, the credit raised by NBFCs was mostly deployed for building resilience capital on the balance sheets or fulfilling debt obligations instead of expanding loan books.

The sector's gross NPAs as a proportion of total loans increased from 5.8% in FY18 to 6.6% in FY19. As of March 2019, the capital adequacy ratio of the NBFC sector moderated at 19.3% from 22.8% in March 2018. It is however noteworthy that the consolidated balance sheet size of the NBFC sector grew by 20.6% to

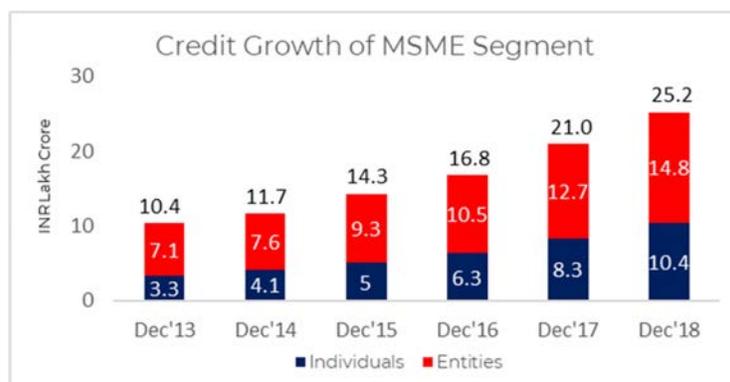

Rs.28.8 trillion in FY19 compared to 17.9% to Rs.24.5 trillion in FY18. The share of loans extended to the commercial sector by NBFCs shrank by almost a third the previous financial year amid unfavourable liquidity conditions and a revival in bank credit growth. NBFCs with a higher proportion of lower cost borrowings from banks and strong asset liability management are expected to sail through the rough weather in the near to medium term.

According to the latest Financial Stability Report (“FSR”) by the Reserve Bank of India (“RBI”), NBFC exposure in the industry credit pie reduced to 26.6% in FY19 from 39.1% in FY18. However, with over 25% of the credit flow still coming from NBFCs, RBI maintains that the sector is an important and integral part of the financial sector. Even the Finance Minister has acknowledged the importance of NBFCs in sustaining consumption demand as well as capital formation, especially in the small and medium industrial segment. Besides providing working capital support to MSMEs, NBFCs have helped create consumption demand in several sectors including auto, consumer durables, etc. by providing easy loans during the past few years.

Micro, Small and Medium Enterprises (“MSME”) Sector Outlook

The MSME sector, that has 63.3 million registered MSMEs in the country (Indian MSME Industry Annual Report 2018) continues to be a significant contributor to the GDP growth. The sector provides employment to over 111 million people, of which 24% are women thereby creating massive potential for social progress and change.

According to the 2019 MSME Pulse report by TransUnion CIBIL & SIDBI, the 5 year growth in aggregate MSME lending is at 15.7% Compound Annual Growth Rate (“CAGR”) of lending to entities and 26.1% of business lending to individuals. The comparatively higher rate of business lending to individuals has translated into a major shift in the composition of the MSME Lending industry in favour of individuals.

CAGR	Individuals	Entities	Total
	15.70%	26.10%	19.30%

MSME sector continues to grab the Government’s attention. Presenting the Budget 2019-20, The Finance Minister unveiled a slew of initiatives and new provisions to tackle issues related to the MSME sector in the country. From widening the net for reduction in corporate tax for companies to strengthening TReDS, the budget is expected to have wide-ranging impact on MSMEs. Highlights include-

- 1) Lower rate of 25 % Corporate Tax extended to companies with annual turnover up to Rs 400 crore from earlier cap of upto Rs 250 crore.
- 2) Rs 350 crore has been allocated under the Interest Subvention Scheme, for 2% interest subvention for all GST registered MSMEs, on fresh or incremental loans
- 3) The Government to create a payment platform for MSMEs to enable filing of bills and payment; thereby eliminating delays in payment and giving a boost to investment in MSMEs
- 4) To bring more participants, especially NBFCs, not registered as NBFCs-Factor, on the TReDS platform

- 5) Extend the pension benefit to about 3 crore retail traders and small shopkeepers whose annual turnover is less than Rs. 1.5 crore under Pradhan Mantri Karam Yogi Maandhan Scheme.

Business and Financial Performance

FY19 has been a year of consolidation for the industry and great learning for Dhanvarsha too. The business is insulated from the impending NPA pressure that is likely to emerge via real estate loans going bad since the company's focus remains on smaller ticket MSME loan underwriting and is fully funded by proprietary capital. However, the industry headwinds did slowdown the overall pace of growth and the business strategies had to be realigned.

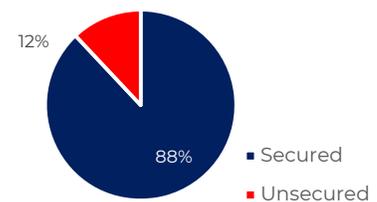

The key financial parameters for the Financial Year ended March 31, 2019 for Dhanvarsha are as follows:

- Assets under Management of Rs.48.73 crore compared to Rs.48.58 crore as on March 31, 2018
- Gross income stood at Rs.21.29 crore, up 79% from last year while Net Profit after tax is Rs.4.43 crore up 8% over previous year. This was on account of a balanced strategy between generating fund based and non-fund-based income.
- The Earning per share ended up at Rs.3.66, lower than the Earning per share of Rs.5.26 the previous year

Dhanvarsha believes in the power of Technology as the key driver of doing business at scale and has recognized the need to be investing in building its technology capabilities. With that as a view, Dhanvarsha has -

- (1) Core lending system fully deployed – MiFiN
- (2) State of the art IT infrastructure including Blackberry (Work), Independent Servers, Firewalls, etc.
- (3) Continued investment in stronger technology led loan delivery systems

Outlook for lending to MSME & Low-Mid Income Segments

The share of Public Sector Banks lending to the MSME sector has reduced over time and the space has been taken up aggressively by private sector players and NBFCs which are nimbler in their turnaround times. NBFCs' share in MSME credit has increased from 13% to 21% from 2013 to 2018. The New To Credit ("NTC") numbers in the MSME space has also increased consistently; almost 500,000 new MSMEs entered

the credit market in the second half of 2018 and this is only expected to rise given the headroom in the current Debt to GDP position in the country.

Dhanvarsha believes in the long-term growth potential of the Indian economy, anchored firmly on the country's demographic profile, consumption demand, the digital economy and the attractiveness to investors, both domestic and global. These factors would drive the long-term growth of the Indian Banking and Financial Services sector. Dhanvarsha wants to be both a contributor and a benefactor of the growing formalization of the economy, the recently introduced insolvency resolution regime and the rapid adoption of technology in every business element will go a long way in defining the future.

Opportunities & Threats

A significant threat for any lending company is to maintain the asset quality while aiming for an expanding the assets under management. Dhanvarsha endeavors to balance the growth rate that it has targeted with a robust Risk Assessment and Credit Assessment framework with operational protocols that ensure high quality assets at scale. Also, the Loan Portfolio will be a healthy mix of Secured loans and Unsecured loans.

In the last several quarters, interest rates substantially hardened given the market conditions and Dhanvarsha foresees that to be the case in the next couple of quarters too. Ensuring that the overall interest cost remains under control is a challenge in the next financial year.

The 'e- business' units, which were once built by several large financial institutions to ride the wave of e-commerce eventually became the 'new normal'. The internet evolution and large technology investments drove massive advances in efficiency. The 'digital' wave that has taken over our lives, that which has left no industry undisturbed, has the same elements – specific teams, P&Ls, and resources set aside to advance the digital agenda. This agenda extends from customer experience to turn around time, from data driven decisions to achieving operational efficiencies never thought before. Banking and financial services have seen disruptions all through the value chain. The 'digital' approach applies to B2C led segments like payments, retail banking, insurance and wealth management as much as toward institutional areas such as commercial banking and capital markets.

New FinTech models led by emerging technologies are gradually eating away the lunch of the 'big boys' of financial services. This journey started off with 'unbundling' institutions and is now very well 'rebundling' the whole financial services value chain led by value driven collaborations between large incumbents and small but nimble Fintech companies. Dhanvarsha aims to be at the intersection of the traditional and the new.

Our Digital Journey

As a Company, we recognised that going digital is no more a choice, but the imperative. We are realigning our core business offerings so that they can be delivered by digital channels by implementing cutting edge technology systems and platforms to offer our customers a differentiated experience.

Digital transformation is not only driven by meaningful consumer engagement but also how quickly businesses can capture, transform and convert customer insights into impactful business growth. In FY2019-20, the core objective of the company will be to become a 'digital first' NBFC geared up for the opportunity to make a massive social impact in a space which is ripe for disruption. Dhanvarsha will strive to be an active contributor to help achieve the '5 trillion-dollar economy' target that the Government has set out for India by 2025.

Drivers of Digitization in the MSME Sector

The Government has been on a journey for achieving a 'digital economy' since the last term in 2015. The push for digital continues to be part of the Government's agenda in this term too. The MSME sector has been impacted significantly and positively in this digital agenda.

Government Initiatives

Unified Payments Interface (UPI) - 2016

Real time payment settlement system for mobile transactions

Demonetization - 2016

Removal of large denomination currency from the banking system accelerated digital payments

Goods & Services Tax (GST) - 2017

Forced MSMEs to formalize their business & increase reporting; ~9.2 mn MSME are GST registered

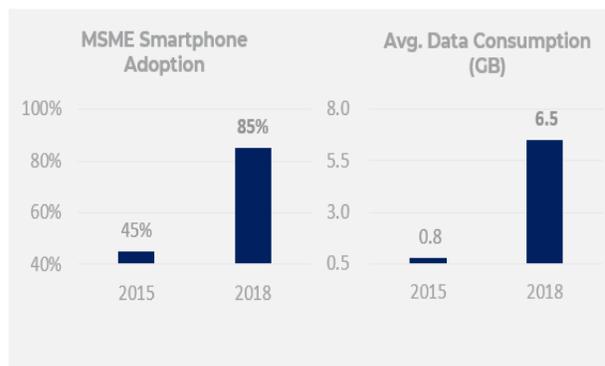

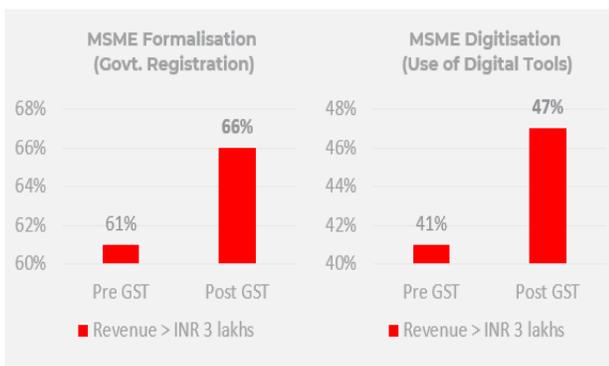

The JAM Trinity

Jan Dhan, Aadhaar and Mobile Trinity

Forms the backbone of Fintech in India and has provided unprecedented adoption via access for millions - for data, financial services

Smartphones and Data Costs

Rapid "smart phonization" of handsets including the MSME fraternity. Data costs have plummeted significantly providing data access to the masses

Business Strategy

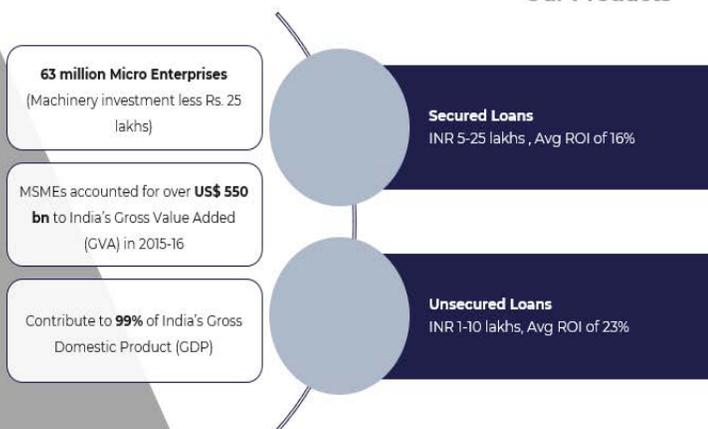

During FY19, Dhanvarsha focussed its strategy largely on the small business loans segment. The change in the focus saw Dhanvarsha launch new unsecured product lines specifically tailored to the small businesses over and above the primary secured product - Loan Against Property. In the tough market landscape, Dhanvarsha is among the few NBFCs to start lending again by turn of the calendar year with a shift in the focus from high ticket, low yield funding to low ticket, high yield unsecured products. Specific products were also introduced for the salaried class.

MSME Categorization (Millions)

Our Products

*MSME: Micro, Small & Medium Enterprises

In FY20, the Business Strategy will focus on -

- Asset light business model targeting small, retail business from own Balance Sheet (Fund based Income);

- Developing additional revenue streams (non-fund based) via retail loans syndication and channel Partnerships with large banks;
- Using technology as a strong enabler to become the leading interface between creditworthy borrowers and financing options.

Thus, the Micro Enterprises segment will continue to be important for Dhanvarsha in the IMPACT STORY it wants to chart out. The segment offers a balanced opportunity in terms of risk - reward profile as well.

- Based on the experience over the last 2 years, Dhanvarsha seeks Customers with small ticket underwriting in this segment (sub Rs.25 lakhs) which limits the risk per client, fund strong cash flow led and high integrity businesses;
- Dhanvarsha's strength lies in the specialized underwriting expertise that it developed for this segment, backed by a multi-pronged collections approach;
- The yields are significantly better than those that banks make in similar products, thereby compensating for the higher risk adequately.

Going Digital-First

The Digital First journey that has been envisaged for Dhanvarsha and the Digital Platform that is being built has been kickstarted with the launch of mobile applications for both the Customers and Channel Partners. "Dhanvarsha" and "Dhanvarsha Channel Partner" Mobil apps are available on Android and IOS operating systems. Our digital initiatives are guided by the singular idea of providing value driven services to our Customers.

The DIY style mobile application has 7 quick and easy steps to follow and allows customers to apply for a loan anytime and from anywhere. The mobile app offers customized products with flexible terms and allows the customer to resume from where he stopped last time, he used the app. The customer's data gets auto populated once he/she uploads the necessary details and is guided into a seamless experience of applying for a loan. The Channel Partner app allows flexibility to the Channel Partner to push the loan applications straight into the Dhanvarsha lending platform through Dhanvarsha Channel Partner mobile app.

The mobile app is integrated with the web platform which helps automate the lending process, has a timely and efficient response system built in and has literally made minimal manual intervention necessary from our team. The Dhanvarsha processing team takes care of the rest for the Customer – from regular follow ups to highlighting any inconsistencies in the documentation submitted via the mobile app. The intelligent credit decisioning system embedded at the backend churns results consistently making the complete application to disbursal process quick, efficient and almost paperless. The platform is equipped to run credit checks (based on well identified parameters) and is intelligent enough of generating scorecards in backend after considering all factors including an individual's credit history, repayment track record, financial information and data from credit bureaus. There has been a conscious effort in being able to provide unique digital experiences to the customers with a human touch, so that we are there for our Customers whenever they need us.

Dhanvarsha will continue to consistently build its business on the foundation of collaboration with partners and leading industry players. The entire bouquet of services will be delivered on the Dhanvarsha Lending Platform leveraged by the joint capability of the partner ecosystem that Dhanvarsha will help build. The strength in the approach is that every borrower / customer that is fundable will essentially be served by us – either by Dhanvarsha or the Partner Network. This gives us an unparalleled advantage both in terms of getting to serve a large Customer base while improving profitability for the business. The digital delivery of our products will give us access to a massive data pool that will be pivotal in defining our future strategies and creating products that are in line with the changing Customer preferences and market dynamics.

Dhanvarsha has been consistently investing in enhancing its technology capabilities and building a state-of-the-art technology platform is the latest in that endeavour. The Platform will be capable enough to handle large volume of data required to evaluate customer applications and flexible enough to capitalize on changing customer preferences, market trends and regulatory requirements. This will help create immense value in a very unorganised and cluttered market, creating a “one stop shop” that will provide credit access to millions of small businesses and generate employment.

Risk Management Framework

To identify, monitor and manage inherent risks in our operations, Dhanvarsha has a robust and comprehensive credit assessment and risk management framework. Dhanvarsha's Comprehensive Risk Management Framework covers not only Credit, Market and Interest rate risks of the Company but also includes Collections risk, Operational risk, Fraud risk, Vigilance risk, Asset liability risk, Foreign exchange risk, People Risk etc.

Judging the overall market scenario, it seemed prudent to tighten the risk assessment & due diligence in the underwriting process. Our Risk Management Framework comprise of:

- Deep understanding of the MSME market and experience of underwriting segments within this market;
- Policy and process-based approach to assist people in risk-mitigation with customized policies to cater to multiple customer requirements;
- A Centralized Credit Processing Centre with Committee Approach for sanction ensuring tight underwriting controls. Multi-layered system strengthens the credit assessment process;
- Multiple verifications and checks have been introduced to get a 360-degree risk assessment done before the final disbursement call;
- Major Risk Assessment tools deployed are Credit Bureau Checks, Satisfactory Banking Habits, Genuineness of Financial Statements, Decent Business/Residential Set-up, Personal/Surprise visits, Field Investigation, Fraud Control Unit Checks, etc.;
- Specialized collections team manages overdue collections.

Human Capital

The objective for the year of the Human Capital Management (“HCM”) department at Dhanvarsha was to build robust systems and processes

We designed the HCM policy framework and ensure that we become a statutory compliant organization. Strategic hiring and providing employees with an environment that fosters continuous learning and recognition has also been high on our agenda for the year. Being the prime custodian of the culture driven at Dhanvarsha, this year the key initiatives undertaken were:

- (1) Developing a culture of collaboration by creating unofficial dialogue platforms through fun events and activities;
- (2) Creating a future influx of talent by extensively working on campus relations; and
- (3) Implementing the new Performance Management Process with emphasis on driving discussion between a manager and his/ her subordinate.

Hiring is an extremely critical function at Dhanvarsha. The hiring process not only aims for talent that is a fit for the current role on offer but also someone who fits in the organization culture and has the capability to grow into the next level roles. Besides hiring leaders to build each departmental vertical and processes, we also emphasized on building a strong support function by extensively hiring in the IT and Sales to support our technology platform. With an agenda to build a performance centric culture, Dhanvarsha redesigned the Performance Management System this year. Individual job descriptions and annual goal sheets were made to help bridge any communication gap between the manager and his/ her subordinate

in terms of expectations versus delivery. This further helped in driving individual performance in turn driving the Dhanvarsha's performance on a holistic level. Building a progressive culture through forward looking policies which will last beyond an individual's lifetime. Keeping this in perspective, Dhanvarsha introduced the HCM policy manual to evolve with the times and remain relevant in the changing time as well as motivate employees. Also, to encourage fun & camaraderie among the employees there are several team/ organizational success celebrations, health initiatives & festivals organized across the organization.

Prevention of Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013: Dhanvarsha has a zero tolerance for sexual harassment at its workplace and has adopted a policy on prevention, prohibition and redressal of sexual harassment at the workplace in line with the provisions of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and the rules there under for prevention and redressal of complaints of sexual harassment at workplace. Also, employees were sensitized about the policy and their rights as per the act guidelines.

Compliance Framework

Compliance function assumes great importance in Dhanvarsha. The Board of Directors and the Audit Committee are responsible for overseeing the implementation of the compliance and risk management framework across Dhanvarsha. The Compliance function not only approves all the new products to be launched to ensure that they are in line with regulatory guidelines, but also undertakes a constant monitoring of the portfolio to identify and mitigate any ongoing risks. The Compliance team also assesses corporate risks on an ongoing basis and keeps the Management/Board informed about important matters through regular updates and annual compliance reviews.

Internal Control Systems

Dhanvarsha believes in a robust and comprehensive internal control system is crucial for business. The Company's internal controls ensure efficiency of operations, compliance with internal policies and applicable laws and regulations, and this is further improved by extensive internal audits, regular reviews by the management and standard policies and guidelines. Dhanvarsha's Internal Auditors performed regular reviews of business processes to assess the effectiveness of internal controls and compliance with laid down policies and procedures. The Internal Audit reports are periodically reviewed by the Audit Committee and any suggestions for improvement are implemented immediately. Dhanvarsha is continuously upgrading its organizational structure, documented policy guidelines, defined authority matrix and other processes and systems in line with the best available practices.

Cautionary Statement

Statements made in this Management Discussion and Analysis Report may contain certain forward-looking statements based on various assumptions on the Company's present and future business strategies and the environment in which it operates. INDEPENDENT AUDITOR'S REPORT

**To the Members of
Dhanvarsha Finvest Limited**

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Dhanvarsha Finvest Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss and the Statement of Cash Flows for the year then ended and notes to the financial statements including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and Rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Obtaining appropriate audit evidence with regard to Loan Assets

Obtaining appropriate audit evidence with regard to Loan Assets is a Key Audit Matter as the Loan Assets constitute a significant portion of the Company's assets and in the past we were not able to obtain the appropriate audit evidence for few of these Loan Assets. Compliance with IRAC norms is utmost important when the company has manual process of identification of non-performance assets.

Principal Audit Procedures:

We developed an understanding of the controls relevant to our audit related to existence, accuracy and valuation of Loan Assets including controls over the identification of loans assets as non-performing assets and assessed whether they were appropriately designed and were operating effectively.

Our audit procedures includes the following:

- a. For new Loan Assets disbursed during the year, we tested on sample basis, documentation and approvals as per Company's policy.
- b. We assessed whether the methodology used by the Company for provisioning and asset classification is in line with RBI's Master Direction.
- c. We assessed the methodology used by the Company for accelerated provision in case of specified standard unsecured loan assets.
- d. We tested on sample basis Loan Assets to assess whether impairments had been identified in a timely manner.
- e. For loans and advances which are assessed as Non- performing assets, we performed particularly the following procedures:
 - We tested the reliability of key data inputs and related management controls;
 - We checked the stage classification as at the balance sheet date as per definition of days past due of the company;
 - We validated the cases to be identified as Non-performing assets through Statement of accounts of the default cases;
 - On sample basis, we have also calculated the provision manually
- f. For Loan Assets which are written off during the year under audit, we understood the steps taken by the Company for recovery before write off and verified the necessary approvals for write off.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion & Analysis, Director's Report and Corporate Governance Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of

adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our

auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2) As required by section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. The Balance Sheet, the Statement of Profit and Loss, and the Statement of Cash Flows dealt with by this report are in agreement with the books of account;
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act read with relevant rules issued thereunder;
 - e. On the basis of the written representations received from the directors as on March 31, 2019, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of section 164(2) of the Act;
 - f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, we give our separate report in "Annexure 2".
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended;

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid/ provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act. ;

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 27 on Contingent Liabilities to the financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts. Hence, the question of any material foreseeable losses does not arise;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Dhanvarsha Finvest Limited on the financial statements for the year ended March 31, 2019]

Report on the Internal Financial Controls with reference to Financial Statements under clause (i) of sub-section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Dhanvarsha Finvest Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness.

Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2019, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

DHANAVARSHA FINVEST LIMITED**NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019****1. Corporate information**

Dhanvarsha Finvest Limited (the Company) is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in the business of providing Micro Enterprise Loans, SME Loans, Other Structured Business, Personal Loans and and in providing ancillary services related to the said business activities. The Company is Non-Systematically Important Non-deposit taking Non-Banking Financial Company ("NBFC"), holding a Certificate of Registration from the Reserve Bank of India ("RBI") dated 11th March, 1998. And Its shares are listed on the BSE Limited.

2. Basis of Preparation of Accounts

The financial statements have been prepared under the historical cost convention on an accrual basis in conformity with generally accepted accounting principles in India ("Indian GAAP") to comply in all material respects with the notified Accounting Standards ('AS') under section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 and the Companies (Accounting Standards) Amendment Rules, 2016.

The Company follows directions prescribed by the Reserve Bank of India ("RBI") for Non-Banking Finance Company ("NBFC"). All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III of the Act. The Company has ascertained its operating cycle to be of 12 months for such classification.

The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year except as stated below:

Change in accounting policies/estimates**Provision on unsecured standard loan and advances**

With effect from March 31, 2019, in the case of provision on standard advances the Company adopted a more stringent policy of maintaining provision on specified unsecured standard loans and advances, at rates that are higher than those prescribed by RBI (2.25% as against 0.25% prescribed by RBI). As a result, short term provision as at March 31, 2019 are higher by **Rs. 598,600/-** with a consequent reduction to the profit before tax.

2.1 Significant Accounting Policies**A. Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revisions to the accounting estimates are recognised prospectively in the current and future years.

B. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria are met before revenue is recognized:

Interest: Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Revenue from Operations" in the statement of profit and loss. Further, in accordance with the guidelines issued by the Reserve Bank of India for Non-Banking Finance Companies, income on loan assets classified as Non-performing Assets, is recognised on receipt basis.

Processing Fee and Application Fee: Income from application and processing fees, including recovery of documentation charges are recognised upfront.

Delayed Payment charges, Penal Interest, Other Penal Charges, Foreclosure Charges etc., are recognised on receipt basis on account of uncertainty of the ultimate collection of the same.

Consultancy Income: Income from Consultancy/Advisory Services are accounted for as per the terms of the contract as and when the relevant services are rendered.

Dividends: Dividend income is recognized when the Company's right to receive dividend is established on the reporting date.

Others: The Company recognises other income on accrual basis. However, where the ultimate collection of the same lacks reasonable certainty, income recognition is postponed to the extent of uncertainty.

DHANAVARSHA FINVEST LIMITED**NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019 (contd.)****C. Investments**

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as 'Current Investments'. All other investments are classified as 'Long term Investments'.

'Long term Investments' are carried at acquisition/amortised cost. A provision is made for diminution other than temporary on an individual basis.

'Current Investments' are carried at the lower of cost or fair value on an individual basis. Profit or loss on sale of investments is recorded on transfer of title from the Company and is determined as the difference between the sales price and the carrying value of the investment.

Investment in buildings, which is not intended to be occupied substantially for use by, or in the operations of, the Company, is classified as investment property. Investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Depreciation on building component of investment property is calculated on a straight-line basis using the rate arrived at based on the useful life as prescribed as per the Schedule II of the Companies Act, 2013.

D. Leases**Where the Company is the lessor**

Assets given on operating leases are included in fixed assets. Lease income is recognised in the Statement of Profit and Loss over the lease term. Costs, including depreciation are recognised as an expense in the Statement of Profit and Loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognised immediately in the Statement of Profit and Loss.

Where the Company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognised as an expense in the Statement of Profit and Loss over the lease term.

E. Foreign currency translation**Initial recognition**

Foreign currency transactions are recorded in the reporting currency which is Indian Rupee, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non-monetary foreign currency items are carried at cost.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting monetary items of the Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise.

F. Earnings per share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard 20 – Earning per Share.

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share are calculated after adjusting effects of potential equity shares. Potential equity shares are those shares which will convert into equity shares at a later stage. Profit/loss is adjusted by the expenses incurred on such potential equity shares. Adjusted profit/loss is divided by the weighted average number of ordinary plus potential equity shares.

DHANAVARSHA FINVEST LIMITED**NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019 (contd.)****G. Segment reporting**

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the Management is deciding how to allocate resources and in assessing performance.

H. Loan Losses and Provisions: NPA and Standard Assets Provisioning

The Company assesses all loans and receivables for their recoverability and makes provision for Non-performing assets (NPA) as considered necessary based on past experience, emerging trends and estimates, subject to the minimum provision required as per the Master Direction - Non-Banking Financial Company –Non-Systemically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016 ("NBFC Master Directions") as and when amended.

Contingent provision against standard asset, as required by the NBFC Master Directions, is also made by the Company on the standard assets outstanding as per the rates given in the NBFC Master Directions.

I. Provisions and Contingencies

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The company does not recognise a contingent liability but discloses its existence in the financial statements.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

J. Fixed Assets:**Property Plant and Equipment**

Property, plant and equipment (PPE) are measured at cost less accumulated depreciation and accumulated impairment, (if any). The total cost of assets comprises its purchase price, freight, duties, taxes and any other incidental expenses directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

Subsequent expenditure related to an item of tangible asset are added to its gross value only if it increases the future benefits of the existing asset, beyond its previously assessed standards of performance. The carrying amount of an item of PPE is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain/ loss arising from derecognition of an item of PPE is included in the Statement of Profit and Loss. The gain or loss arising from the derecognition of an item of PPE would be the difference between the net disposal proceeds, if any, and the carrying amount of the item.

The residual value, useful life and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if required.

Intangible Assets

Intangible Assets are stated at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Intangible Assets under Development

Amount incurred towards the acquisition of Intangible Assets not ready for intended use at each Balance Sheet date are disclosed under Intangible Assets under Development.

DHANAVARSHA FINVEST LIMITED**NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019 (contd.)****K. Depreciation and Amortisation on Fixed Assets:****Property Plant and Equipment**

Depreciation on cost of PPE is provided on straight line method at estimated useful life, which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013. Leasehold improvements include all expenditure incurred on the leasehold premises that have future economic benefits. Leasehold Improvements are amortised on a straight line basis over the period of lease

Intangible Assets

Intangible assets are amortized over the useful life on pro-rata basis under the straight-line method as estimated by the management. Intangible assets comprising of software are amortised on a straight line basis over a period of 5 years, unless it has a shorter useful life.

Amortisation on assets acquired/sold during the year is recognised on a pro-rata basis to the Statement of Profit and Loss from/upto the date of acquisition/sale. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

L. Retirement and other employee benefits**(I) Post-employment employee benefit****Defined Contribution schemes**

All the employees of the Company are entitled to receive benefits under the Provident Fund Scheme, a defined contribution plan in which both the employee and the Company contribute monthly at a stipulated rate. The Company has no liability for future benefits other than its annual contribution and recognises such contributions as an expense in the period in which employee renders the related service. If the contribution payable to the scheme for service received before the Balance Sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid.

Defined Benefit schemes

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Payment of Gratuity Act, 1972'. The present value of the obligation under such defined benefit plan is determined based on actuarial valuation, carried out by an independent actuary at each Balance Sheet date, using the Projected Unit Credit Method, which recognizes each period of service as giving rise to an additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan are based on the market yields on Government Securities as at the Balance Sheet date.

Actuarial gains and losses comprise experience adjustment and the effects of changes in actuarial assumptions are recognised immediately in the Statement of Profit and Loss.

(II) Other long term employee benefits

Company's liabilities towards compensated absences to employees are accrued on the basis of valuations, as at the Balance Sheet date, carried out by an independent actuary using Projected Unit Credit Method. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Statement of Profit and Loss.

M. Good and Service Tax input credit

Goods and Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is no uncertainty in availing / utilising the credits. The company has opted to claim 50% of eligible input tax credit on inputs, capital goods and input services and the balance 50% is charged to the Statement of Profit and loss as per applicable provisions.

DHANAVARSHA FINVEST LIMITED**NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019 (contd.)****N. Borrowing costs**

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs to the extent related/attribution to the acquisition/construction of assets that takes substantial period of time to get ready for their intended use are capitalized along with the respective fixed asset up to the date such asset is ready for use. Other borrowing costs are charged to the Statement of Profit and Loss in the period they occur.

O. Cash and cash equivalents

Cash and Cash Equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, as per Accounting Standard 3 "Cash Flows".

P. Employee stock Compensation Cost

Measurement and disclosure of the employee sharebased payment plans is done in accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Sharebased Payments, issued by the Institute of Chartered Accountants of India (ICAI). The Company measures compensation cost relating to employee stock options using the fair value method. Compensation expense is amortised over the vesting period of the option on a straight line basis.

Q. Taxation

Income-tax expense comprises current tax, deferred tax charge or credit and minimum alternate tax (MAT).

Current tax

Current income-tax is measured at the amount expected to be paid to the tax authorities after considering tax allowances, deductions and exemptions determined in accordance with Income Tax Act, 1961 and the prevailing tax laws. The tax rate and laws used to compute the amount are those which are enacted at the reporting date.

Minimum alternate tax

Minimum alternate tax (MAT) obligation in accordance with the tax laws, which give rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal tax during the specified period. Accordingly, it is recognised as an asset in the Balance Sheet when it is probable that the future economic benefit associated with it will flow to the Company and the asset can be measured reliably, and reviewed at each reporting date.

Deferred tax

Deferred tax liability or asset is recognised for timing differences between the profits/losses offered for income tax and profits/losses as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax asset is recognised only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax asset is recognised only if there is a virtual certainty of realization of such asset. Deferred tax asset is reviewed as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/virtually certain to be realized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

R. Impairment of Assets

The carrying amount of assets is reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment. The reversal of impairment is recognised in Statement of Profit and Loss, unless the same is carried at revalued amount and treated as revaluation reserve.

DHANVARSHA FINVEST LIMITED**NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019 (contd.)****33 Employee Benefits**

Disclosures as required as per Accounting Standard -15 – “Employee Benefits” are as under:

l) Defined Benefit plans

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service. The plan is wholly unfunded. The present value of the obligation is determined based on an actuary valuation, using the Projected Unit Credit Method. Actuarial gain and losses arising on such valuation are recognised immediately in the Statement of Profit and Loss.

34 Employee Stock Option Plan

During the year, the Company has granted 11,17,710 Employee Stock Options (ESOP) under the Dhanvarsha Employee Stock Option Scheme 2018 (ESOP 2018) to eligible employees spread over a period of 1 to 4 years. The said ESOPs will start its vesting period from November 5, 2019. The details of which are as follows.

Financial Year in which options will vest	ESOPs equivalent to number of equity shares of face value of ` 10/- each
2019-20	111,771
2020-21	223,542
2021-22	335,313
2022-23	447,084
Total	1,117,710

As at March 31, 2019, 1,061,299 (As at March 31, 2018 - Nil) (net of forfeitures of 56,411 options) options were outstanding, which were granted at exercise price of Rs. 30. The following are the outstanding options as at March 31, 2019:

ESOP Scheme	Particulars	Date of Grant	Date of Board Approval	Exercise Price Per Option (Rs.) post bonus options	Total Options granted	Vesting Period	Method of settlement
ESOP Scheme 2018	Grant 1	05-11-18	05-11-18	30.00	1,117,710	05/11/2019 to 05/11/2023	Equity

Exercise Period: Eligible to exercise the options during the next four years from the date of vesting.

Manner of vesting: In a graded manner over a 4 year period with 10%, 20%, 30% and 40% of the grants vesting in each year commencing from the start date of the first tranche.

The fair value of options have been calculated on the date of the grant, using Black-Scholes model by an external firm of valuer.

The key assumptions used in Black-Scholes model for calculating fair value as on the date of the grant are:

Grant Date	Risk Free Interest Rate	Expected Life	Expected Volatility	Dividend Yield	Price of the underlying Share at the time of the Option Grant (Rs.)	Fair Value of the Option (Rs.)			
						1st Stage	2nd Stage	3rd Stage	4th Stage
05-11-18	7.35% - 7.46%	4.5 to 6 yrs	46.1% to 47.9%	2.29%	43.80	22.39	22.82	23.56	23.98

In respect of stock options granted pursuant to the Company's stock option scheme, the fair value of the options is treated as discount and accounted as "Expenses on Employee Stock Option Plan" over the vesting period.

Expenses on Employee Stock Option Plan debited to Statement of Profit and Loss during the year 2018-19 is Rs. 37,88,167/- (P.Y.: Nil)

The balance in Employee Stock Option Plan as at March 31, 2019 is Rs. 37,88,167/- (P.Y.: Nil)
